Our Technologies, Your Tomorrow

Energy & Environment Domain

— The Challenge to **Generate**

Energy & Environment offers optimal solutions in the energy-related fields of thermal power, nuclear energy and renewable energy, in such environmental areas as water and flue gas treatment, and for chemical plants and other industrial infrastructure elements. By integrating large-scale infrastructure projects that support society, MHI generates new power for the future.

Integrated Defense & Space Systems Domain

— The Technology to **Safeguard**

Integrated Defense & Space Systems provides integrated land, sea, air and space defense systems, including naval ships, defense aircraft, launch vehicles and special vehicles, as well as space-related services. MHI uses the technology and expertise cultivated in its defense and space business to provide security on the planet.

Commercial Aviation & Transportation Systems Domain

— The Power to **Progress**

Commercial Aviation & Transportation Systems delivers advanced land, sea and air transportation systems, including civilian aircraft, commercial ships and transit networks. MHI moves society, supporting its transportation and logistics infrastructures with superior safety, guaranteed quality and reliability backed by technology.

Machinery, Equipment & Infrastructure Domain

— The Means to **Connect**

Machinery, Equipment & Infrastructure provides a wide range of products that form the foundation of industrial development, such as machine tools, material handling, construction machinery, air-conditioning and refrigeration systems. MHI applies its vast business endeavors and high reliability as a corporation that supports social and industrial infrastructure to connect people to people, businesses to businesses, and the present to the future.
